

**OUR FAITH  
OUR CITY:**

**Statement of  
Agreed Values**

# Our Faith - Our City

**On Saturday 26th November 2005 nearly one hundred young people aged between 11 and 25 gathered at Millennium Point, Birmingham, for an event organised by the College for International Citizenship and Young People's Parliament. They came to listen to each other talk about their faith or belief systems and explore the common ground between them. They then worked together to come up with an agreed set of shared values, which they voted on.**

**The following statements represent a bringing together of the work from 8 different groups, mixed ages and faiths.**

# Statement of Agreed Values

We share a common value respecting truthfulness & honesty, and believe that all people should strive to achieve these values.

We have the right to affirm our spiritual identity through chosen pathways.

We believe that religion should be a proactive force for good.

We respect the human rights of all peoples.

We support the right of all people to live in peace.

We want to support & empower communities to grow & develop through peaceful means.

# Statement of Agreed Values

We cherish all people & the world we live in.

We believe we should show respect & understanding to other peoples & cultures.

We accept diversity.

We want to challenge and remove stereotypes.

We all hold a responsibility for each other & cannot be passive observers in times of oppression.

We believe the world is one & we should unite as a family.
