Determinations

New Determination Form

A new determination application form has been prepared to ensure compliance with the requirements of the law. Essentially, it seeks the required information for SACRE to make a decision about whether a Determination – which lifts the requirement that Collective Worship be wholly or mainly of a broadly Christian character – can be granted.

The form no longer asks about the planned provision for Collective worship. However, the Collective Worship Working group is anxious to develop means of sampling Collective Worship regardless of whether a determination had been granted to ensure good practice is shared across the City.

The Initial Application for a Determination and Review of a Determination form are being brought to the next meeting of SACRE for consideration and approval.
